

## STEMMING TRUCK 19M3

### DESCRIPTION

The Blend belt body perfectly complements the use of Blend plants.

Equipped with an unloading belt at the bottom of the hopper, it allows to unload the transported materials without tipping, increasing the safety of the operation. Ideal for construction sites with low-height cables and equipment, tunnels, mines. This system reduces the weight of its structure in comparison with tipper bodies, maximizing the payload.

### SPECIFICATIONS

- 19m3 loading volume
- 4 mm thick Hardox 450 structure
- Custom subframe
- Rubber sliding carpet with rotating cylinders
